Jambusting.com

KS provided update on the annual Jam Busting June (JBj) campaign and commuter challenge which is being refreshed for 2010. In its sixth year and with Bristol's turn to lead the event and also wishing to promote their Betterbybike campaign, it has been agreed by the four local authorities to re-brand as Jambusting and launch a September event.

More information to follow shortly - it is interesting to note that year on year commuters change from car to cycle use more than any other mode during Jambusting. <https://www.jambustingjune.com/>
