Rod Sterland, Long Ashton PC
MJ Ray, TTLLP.co.uk
Nigel Lindores, RE-CYCLE-A-CYCLE
Mitchell Covey, RE-CYCLE-A-CYCLE
Michael Glennie, Resident/ CTC Member

3. Minutes of previous meeting

Outstanding question relating to why 'mopeds' would appear to be allowed to use the cycle track over Hutton Moor Bridge.

JG

4. Outstanding works/ maintenance list

Now the identified works on the Strawberry Line are completed it was noted that there are no outstanding works on the list.

5. Future works programme

The Group discussed aspirations for priorities for the future and what schemes could be put forward on the future works programme for consideration for funding. The discussions led with the problems associated with the delivery of Tutshill Sluices to create a route between Clevedon and Weston-super-Mare.

Other schemes that were suggested include:

Cycle Track along Winterstoke Road

Review islands along Broadway. JG explained that there could be room for a cycle track on the Northern side of the road.

Upgrade Route between Queensway and Madam Lane, Worle
A link through Wyvern School to the Bourneville
Look at the route through Yatton to avoid the High Street – signing

6. NSC update

JG answered some specific queries. (Refer to Cycling update sheet for August for updates)

7. AOB

RE-CYCLE-A-CYCLE gave a presentation on the work they are doing on the Bourneville. The project takes unwanted cycles and refurbishes them to sell for a nominal cost. Sometimes the cycles may be borrowed if the recipient is financially challenged. The organisation would be grateful for any unwanted cycles you may have at the back of the garden shed!

Recycle-a-Cycle is based at Unit 41 in Oldmixon Crescent, Weston-super-Mare. For more details call 01934 418556.

JG was asked whether NSC was going to get involved with the Weston Bikeathon. JG said initial contact had been made and the Sustainable Travel Team was keen to assist and that NSC is waiting for the organisers to make contact.

Cycle Maps – JG reminded all to get any revisions to the cycle maps to him for inclusion on the 2009 map which would be issued earlier than last year.

8. Date of next meetings

Thursday 13 November – The Campus, Room 2

Tuesday 6 January – The Campus, Room 2
